# 1. Uvod

## 1.1 Korisćene tehnologije

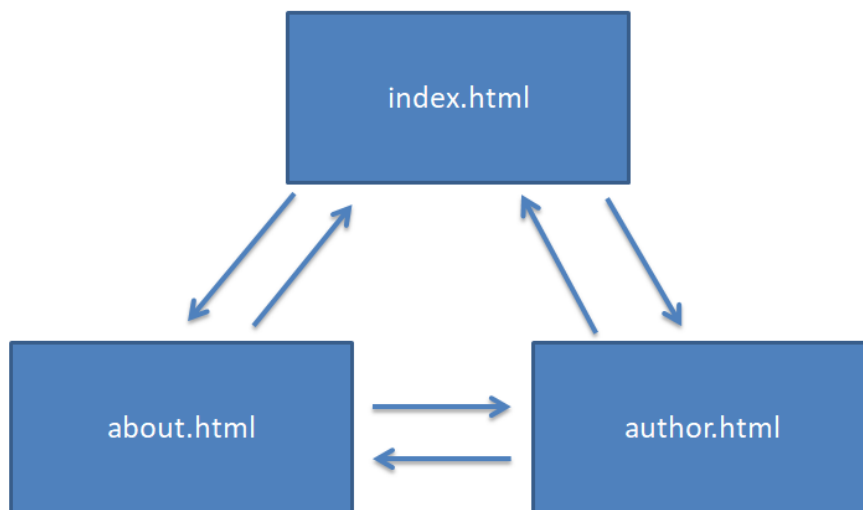

- HTML 5
- CSS 3
- JavaScript
- jQuery
- jQuery Slider plugin
- Visual Studio code
- Adobe Photoshop

## 1.2 Opis funkcionalnosti

- Dinamičko učitavanje kompletnog header-a na svim stranama, uz dodavanje klase current u zavisnosti na kojoj strani se nalazimo
- Header je prilagodjen za sve vrste uređaja, pa se na manjim ekranima prikazuje tako što se elementi u blokovima podvlače jedan ispod drugog
- Dinamičko učitavanje slajdera sa slikama (strane Home i Author) koje se menjaju automatski, klikom na dugme (levo, desno) ili prevlaćenjem slike
- Provera podataka iz forme regularnim izrazima na stranama Home i Author
- Dinamičko učitavanje sekcije sa albumima izvođača
- Dinamičko učitavanje menija i sekcije sa linkovima ka socijalnim mrežama u footer-u na svim stranama
- Pojavljivanje strelice za povratak na vrh strane nakon skrolovanja stranice na dole na svim stranama

## 2. Organizacija

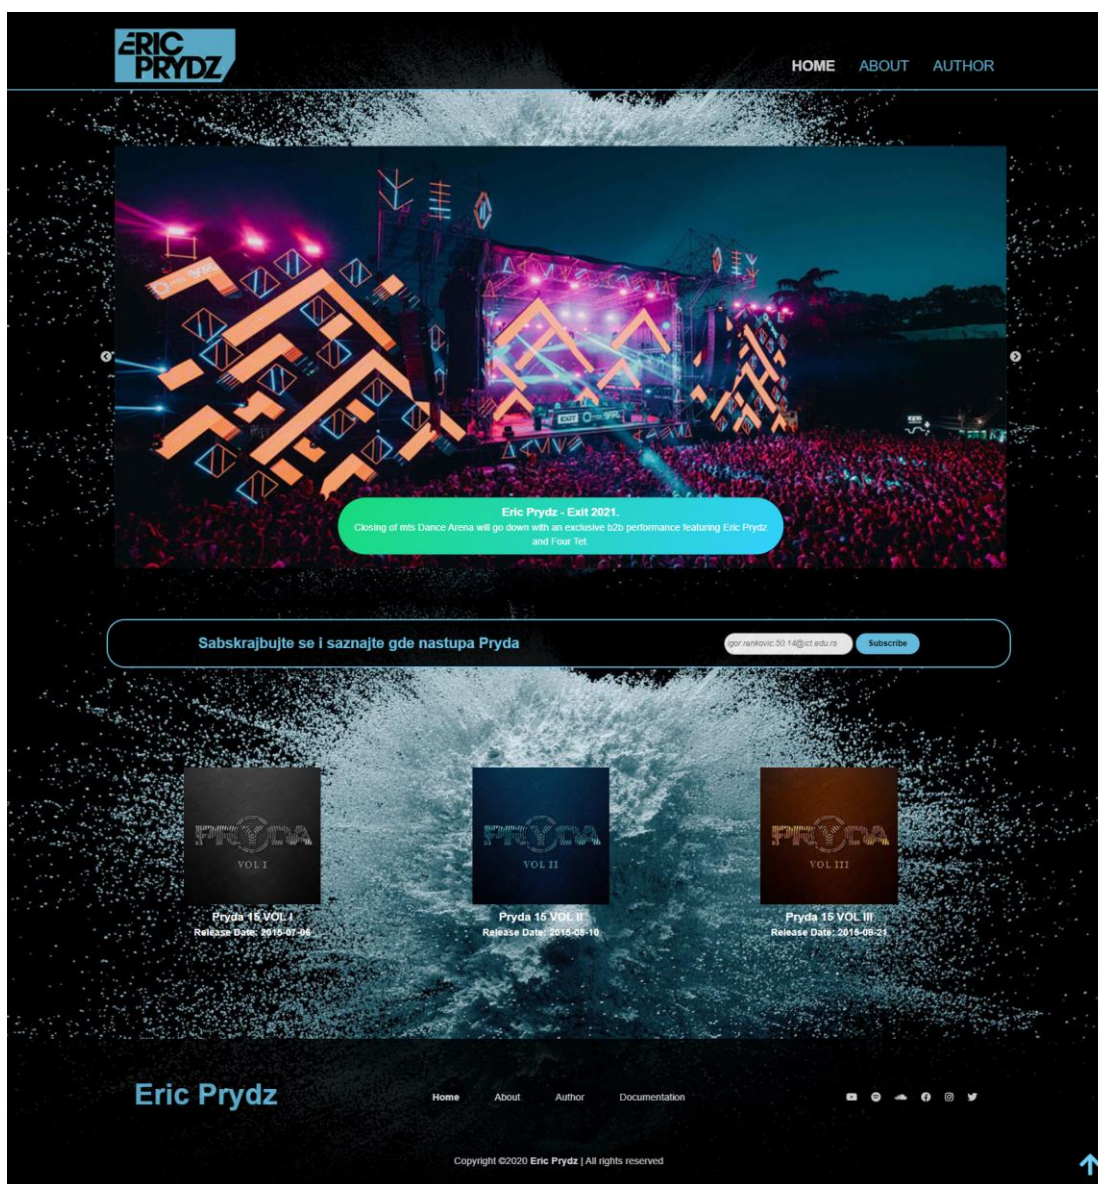

### 2.1 Organizaciona šema

## 2.2 Opis stranica sajta

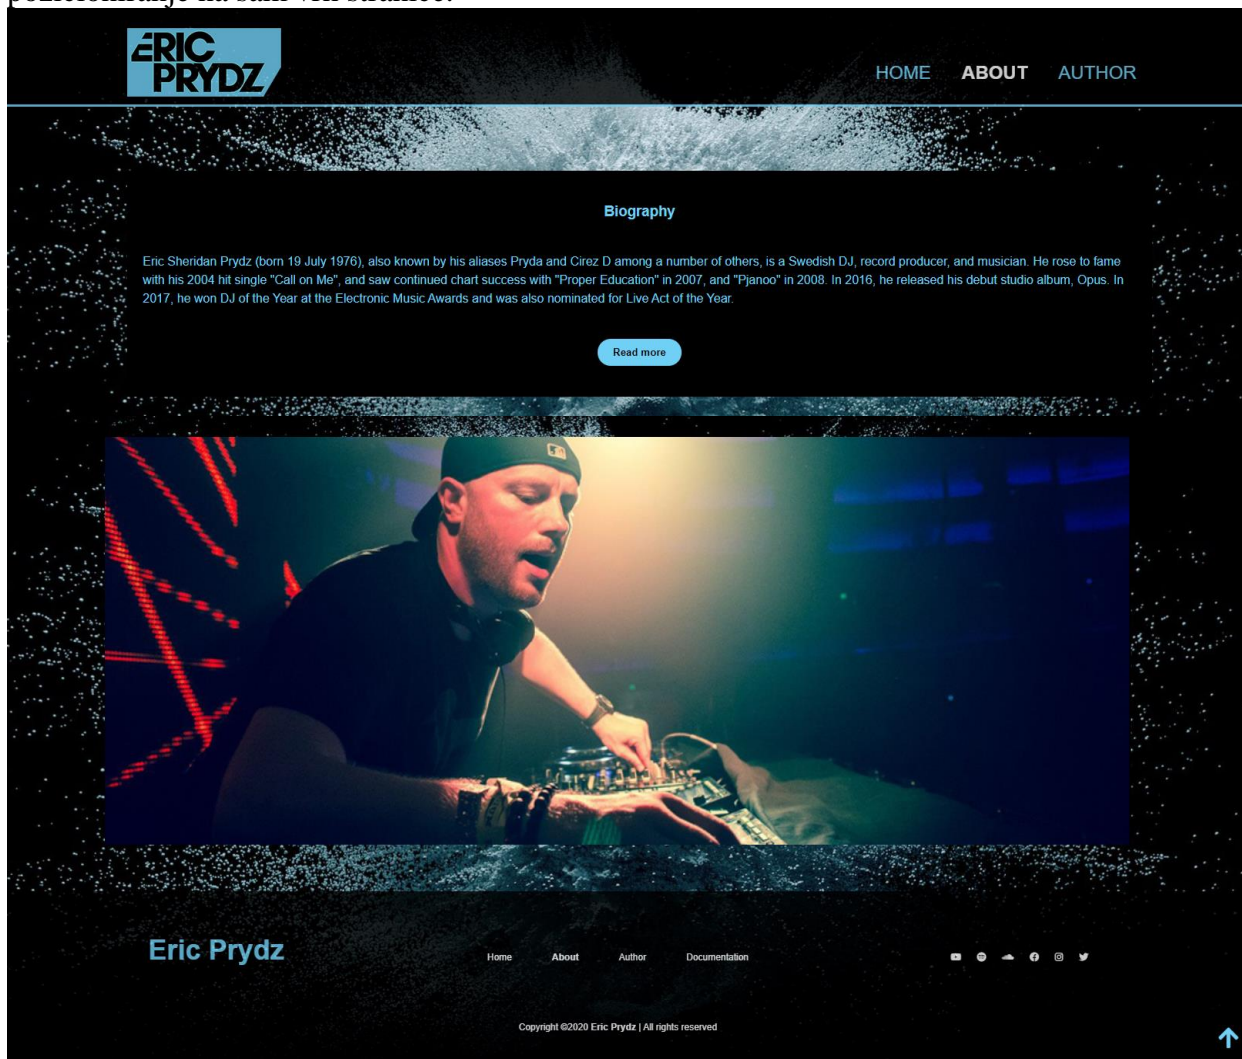

### 2.2.1 index.html

Po učitavanju index strane JavaScript-om se kompletan sadržaj u sekcijama header i footer(osim sekcija u kojoj se nalazi logo), slider, albums ispisuje iz niza. Klikom na taster „subscribe“, automatski se poziva funkcija koja proverava validaciju unetog email-a. Ukoliko su podaci pravilno popunjeni, pojavljuje se alert sa obaveštenjem da se korisnik uspešno pretplatio. Klikom na strelicu koja se pojavljuje nakon skrolovanih 300px na dole, vrši se pozicioniranje na sam vrh stranice.

## 2.2.2 about.html

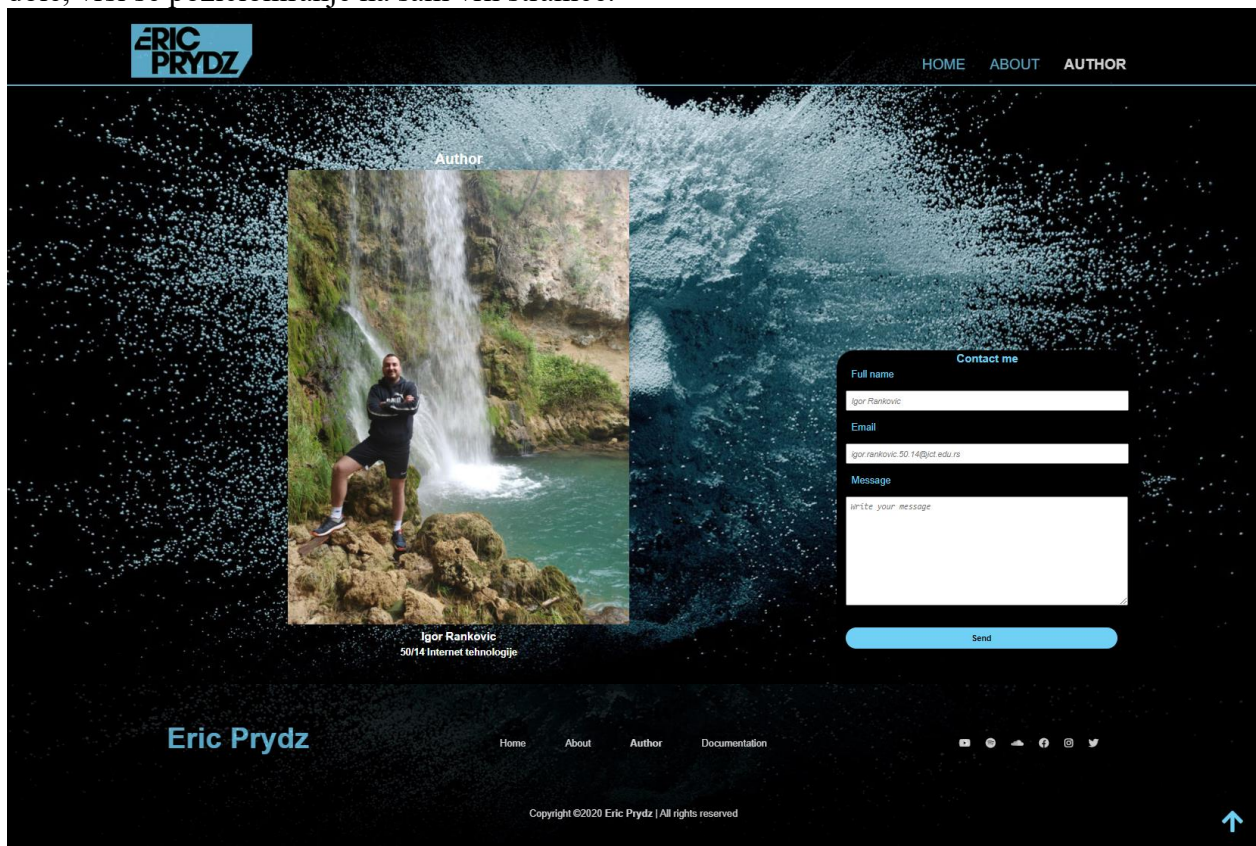

Na ovoj stranici se po učitavanju dinamički ispisuju sekcije header i footer. Ispod header-a nalazi se sekcija sa tekstom i dugmetom “Read more”. Klikom na dugme, trigeruje se funkcija koja prikazuje ceo tekst pomoću jQuery-a. Nakon toga, naziv na dugmetu se menja u “Read less” i ponovnim klikom može smanjiti sadržaj teksta kao po učitavanju stranice. Ispod sekcije sa tekstom, nalazi se slajder, koji na svake 3 sekunde menja po jednu sliku. Klikom na strelicu koja se pojavljuje nakon skrolovanih 300px na dole, vrši se pozicioniranje na sam vrh stranice.

## 2.2.3 author.html

Na stranici author.html se, kao i na prethodne dve stranice, dinamički ispisuje header i footer. U sekciji autor, sa leve strane, nalaze se slika i informacije o samom autoru. Sa desne strane, u sekciji kontakt, nalazi se forma koja omogućava kontaktiranje autora. Prilikom klika na dugme “Send”, trigeruje se funkcija koja vrši validaciju unetih podataka u input tagovima. Ukoliko su svi podaci pravilno uneti, okviri input-a se boje plavom bojom i pojavljuje se alert sa obaveštenjem da je poruka uspešno poslata. Ukoliko su podaci neispravni, okviri se boje narandžastom bojom i u samim prostorima za unos podataka se ispisuju primeri kako bi unet sadržaj trebao da izgleda. Klikom na strelicu koja se pojavljuje nakon skrolovanih 300px na dole, vrši se pozicioniranje na sam vrh stranice.

        <h1>Biography</h1>
        <p>
          Eric Sheridan Prydz (born 19 July 1976), also known by his aliases Pryda and Cirez D among a number of others, is a Swedish DJ, record producer, and musician. He rose to fame with his 2004 hit single "Call on Me", and saw continued chart success with "Proper Education" in 2007, and "Pjanoo" in 2008. In 2016, he released his debut studio album, Opus.
          In 2017, he won DJ of the Year at the Electronic Music Awards and was also nominated for Live Act of the Year.

Prydz is perhaps best known for his 2004 hit single "Call on Me", which samples the Steve Winwood hit "Valerie". It topped the UK singles chart for five weeks and was number one on the German Top 100 for six consecutive weeks.

Although this track made him immensely popular, Prydz has stopped playing it in his shows in an attempt to distance himself from it. In some respects he has succeeded, and with his newer songs, Prydz has gained recognition from both underground and mainstream fans.

In 2006, he released a remixed version of Pink Floyd's "Another Brick in the Wall 1, Part 2", titled "Proper Education" with a video.

<h1>2009 - 2013: Eric Prydz Presents Pryda</h1>

<p>

In 2009, Prydz released "Miami to Atlanta", where the "Pryda snare" was first used. The Pryda snare is a popular technique in house and trance music consisting of using a compressed and sustained snare sample at the end of a bar.

Commonly used to mark progressions in a song structure, it has been widely sampled in the electronic dance music world, notably by producers such as Martin Garrix, Dimitri Vegas & Like Mike, and W&W.

</p>

<p>

On 21 May 2012, Prydz released his debut artist album, Eric Prydz Presents Pryda, as a 3-disc album on Virgin Records (Astralwerks in the USA). Disc 1 is made up of new unreleased Pryda productions, which some fans may have heard as works in progress (including Shadows, Agag, Mighty Love, Allein and the intro edit of Pjanoo).

Discs 2 and 3 bring together many of the classic tracks from the Pryda catalogue, sequenced and continuously mixed by the man himself, including some of his special re-edits.

</p>

<p>

The Ministry of Sound club in London hosted the launch of Eric Prydz Presents Pryda on 14 April 2012, where Prydz played some of the tracks from the album. Inserting the CD in a computer and visiting Prydz's Facebook page provides access to a download of 'Tijuana', a track previously known as 'Space Miami ID' in .WAV format.

</p>

<p>

His 2013 Essential Mix was named Essential Mix of the Year by Pete Tong.

2014 - present: PR(10)DA,PR(15)DA EPs and Opus

</h1>

<p>

2014 was the 10th year of Prydz's label Pryda Recordings, and as a result, on 9 January 2014, Prydz announced a special upcoming artist album which was initially due for release la

ter that year. On 4 May 2015, Prydz announced PR(10)DA, a collection of unreleased tracks from January 2004 to December 2014.

PR(10)DA was released over three EPs, leading up to an album release in February 2016.

On 19 May 2014, Prydz announced via social media the third installment of his concert, Eric Prydz in Concert, titled EPIC 3.0. Promising the 'world's largest indoor hologram', new music, and new visuals, the show was to be held at Madison Square Garden during the Fall.

Prydz performed his EPIC 3.0 show on 27 September 2014, playing a large range of new and unreleased material. The show incorporated a 20m, 4K hologram, and 32 lasers.

On 4 July 2015, Prydz was the first DJ with a set featured as a "One Mix" on Beats 1, the worldwide radio station on Apple Music.

On 5 February 2016, Prydz released his debut studio album Opus. In October 2015, Kieran Hebden released a remix of the title track under his pseudonym, Four Tet. On 28 June 2016, Prydz collaborated with Luke Versalko from Mashable to produce a short documentary that details the making of his Epic 4.0 show.

In June 2016 he also appeared on Insomniacs Night Owl Radio.

To celebrate the 15th anniversary of the Prydz' Pryda alias, On 10 April 2019 Eric announced the release of PR(15)DA, a collection of 27 songs.

Aside from producing music, Prydz also runs the record labels Pryda, Pryda Friends, Pryda Presents and Mouseville, which release most of his own music. On Pryda, he releases music as Pryda. On Mouseville Records, started in 2002, he releases techno tracks as Cirez D. Prydz has a fear of flying, which means he mainly tours on a bus.

He resides in Los Angeles, California.
